Tom-

I will be happy to answer some of these questions for you now but I must admit that this is the first time that I have seen a request on these topics.

- The Vehicle Emission Control information Label (VECI) label for the pick-up trucks had been approved by EPA and ARB a long time back and I can send you the confirmation email from ARB on this approval if you would like to view that.
- The warranty that we will meet for the pick-up truck is 5 yr/100,000 mile which is higher than the EPA and ARB requirements for HDV and MDV.
- The maintenance schedule for emission related components will all be per the regulator requirement as mentioned in the regulations (example,  $\geq 100,000$  mile for catalyst components, 75,000 mile for the breather element compared to a 50,000 mile regulatory requirement...)
- Could you please elaborate on the phase-in/offset plan on what your requirements are. Are you expecting projected sales volumes for these? I hope to provide this as part of the certification application. We will also talk about our plan (LEV/ULEV Phase-in for ARB) when we talk to you this Thursday.

Hope I have answered your questions. Please feel free to call me at 812-371-5493 if you have more questions.

regards,  
Girish.

Subject: Re: -- CONFIDENTIAL -- Conference call with Cummins

Hi All, I am very concerned about this engine family's certification activities. I have asked for warranty, label, maintenance schedule and phase-in/offset plan for this family and have not received any of these items. Please send these items in as soon as possible. --Tom

Gentlemen-

I hope you all had a good weekend. Bob Jorgensen and I would like to schedule a conference call with you all this Thursday, September 7 at 9 a.m. California time (noon EPA & Cummins time). We expect the call to go for an hour and here is what we are hoping to talk about,

- Certification test update and standards
- DF test update

We do not have a formal presentation on this as it is only two topics that we wanted to talk about over the phone. I hope you all will be able to take an hour away from your busy schedule to accommodate us.

Please let me know if there is a problem and I will try to reschedule.

I will send out details on the call-in number as soon as I get confirmation.

thanks!

Girish.
